

util/src/BufferedHistogram2
D.cxx

```
graph TD; A["util/src/BufferedHistogram2D.cxx"] --> B["WireCellUtil/BufferedHistogram2D.h"]; B --> C["vector"]; B --> D["deque"];
```

The diagram illustrates the relationship between a C++ source file and a header file, and the header file's dependencies. At the top, a gray box contains the text 'util/src/BufferedHistogram2D.cxx'. A blue arrow points down from this box to a white box with a black border containing the text 'WireCellUtil/BufferedHistogram2D.h'. From this central box, two blue arrows point down to two separate white boxes with black borders: 'vector' on the left and 'deque' on the right.
