

internal::handle_char
_specs

```
graph LR; A[internal::handle_char_specs] --> B[align_spec::align]
```

A diagram showing a call from a function to another function. On the left, a gray rectangular box contains the text 'internal::handle_char_specs'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'align_spec::align'.

align_spec::align
