

util/inc/WireCellUtil  
/MemUsage.h

```
graph TD; A["util/inc/WireCellUtil /MemUsage.h"] --> B["fstream"]; A --> C["vector"]; A --> D["string"];
```

The diagram illustrates the dependencies of the header file `util/inc/WireCellUtil/MemUsage.h`. Three blue arrows originate from the bottom of the top box and point to the boxes labeled `fstream`, `vector`, and `string`, indicating that the header file includes or depends on these standard C++ libraries.

fstream

vector

string
