

```
internal::context_base  
< OutputIt, basic_format  
_context< OutputIt, Char  
>, Char >
```

A diagram showing a relationship between two C++ classes. A light gray box at the bottom contains the code for `basic_format_context`. A blue arrow points upwards from this box to a white box at the top, which contains the code for `internal::context_base`. The arrow indicates that `internal::context_base` inherits from or is derived from `basic_format_context`.

```
basic_format_context  
< OutputIt, Char >
```
