

internal::value::value

```
graph LR; A[internal::ansi_color_escape<br/>_escape::ansi_color_escape] --> B[internal::value::value]
```

The diagram consists of two rectangular boxes. The box on the left is shaded gray and contains the text 'internal::value::value'. The box on the right is white and contains the text 'internal::ansi\_color' on the top line and '\_escape::ansi\_color\_escape' on the bottom line. A blue arrow points from the right side of the white box to the left side of the gray box.

internal::ansi\_color  
\_escape::ansi\_color\_escape
