

spdlog::logger::~~logger

```
graph LR; A[spdlog::logger::logger] --> B[spdlog::logger::~~logger]
```

The diagram illustrates a pointer relationship between two C++ identifiers. On the right, a white rectangular box with a black border contains the text 'spdlog::logger::logger'. A dark blue arrow points from the right side of this box to the left side of a gray rectangular box with a black border on the left. This gray box contains the text 'spdlog::logger::~~logger'.

spdlog::logger::logger
