

internal::ansi\_color  
\_escape::ansi\_color\_escape

```
graph LR; A["internal::ansi_color_escape::ansi_color_escape"] --> B["internal::value::value"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is shaded gray and contains the text 'internal::ansi\_color' on the first line and '\_escape::ansi\_color\_escape' on the second line. The right box is white with a black border and contains the text 'internal::value::value' on a single line. A dark blue arrow points from the right side of the left box to the left side of the right box.

internal::value::value
