

spdlog::details::flag  
\_formatter

```
graph BT; A["spdlog::details::source_formatter"] --> B["spdlog::details::flag_formatter"]
```

The diagram illustrates an inheritance relationship between two C++ classes. At the bottom is a gray box representing the base class, `spdlog::details::source_formatter`. A blue arrow points vertically upwards from this box to a white box at the top, representing the derived class, `spdlog::details::flag_formatter`. Both boxes have a black border and contain their respective class names in two lines.
