

report\_system\_error

```
graph LR; A["float_spec_handler::on_error"] --> B["report_system_error"]
```

A diagram showing a call from `float_spec_handler::on_error` to `report_system_error`. The `report_system_error` box is shaded gray, while the `float_spec_handler::on_error` box is white. A blue arrow points from the white box to the gray box.

float\_spec\_handler
