

internal::decimal_formatter

```
graph BT; A[internal::decimal_formatter_null] --> B[internal::decimal_formatter]
```

The diagram illustrates an inheritance relationship between two C++ classes. At the bottom is a gray-shaded box labeled 'internal::decimal_formatter_null'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'internal::decimal_formatter'. This indicates that 'internal::decimal_formatter' inherits from 'internal::decimal_formatter_null'.
