

WireCell::Interface

```
graph BT; IProcessor[WireCell::IProcessor] --> Interface[WireCell::Interface];
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'WireCell::Interface'. Below it is a box labeled 'WireCell::IProcessor'. A blue arrow points from the bottom of the 'WireCell::IProcessor' box up to the bottom of the 'WireCell::Interface' box, indicating that 'WireCell::IProcessor' inherits from 'WireCell::Interface'.

WireCell::IProcessor
