

```
boost::iterator_facade  
< RandomIter< Container,  
  Value >, Value, boost::  
  random_access_traversal_tag >
```

```
WireCell::RandomIter  
< Container, Value >
```

A blue arrow points from the WireCell::RandomIter box on the right to the boost::iterator_facade box on the left, indicating that WireCell::RandomIter inherits from or specializes boost::iterator_facade.
